Dear Colleagues

It is with great pleasure that we, the Organising Committee, invite you to join the 2nd Global Convention on Noise Pollution and Health on 28-11-2020 (Saturday) . The Conference is organised by National Initiative for Safe Sound, an initiative of Indian Medical Association (IMA) jointly with AOI, IAOHNS, Kerala State Environment Department, Kerala Police, AHPI, AWAAS Foundation and The International Journal of Noise & Health.

As a continuation of the legacy of our First Global Convention, we will be hosting a session on "Otology and Audiology Update " this year as well. We sincerely believe that this session will be really beneficial for Medical Practitioners and Audiology Professionals.

As part of our mission to expand the horizon of knowledge, we have an array of National and International Faculty sharing their expertise with the delegates. Apart from Medical and Audiology Professionals, this Conference is open to Environmentalists, NGOs and the public. Registration is free but compulsory. We are sure that this conference will explore new avenues of thought and highlight the serious and detrimental health issues caused by Noise to the international community.

Best Regards

Organizing Chairman
